## EDUCATION

### Ateneo de Manila University

Katipunan, Quezon City

BS in Computer Science with specialization in Data Science (GPA: 3.19)

- Organizations/Awards: Second Honors:3rd Year, First and Second Semester. First Honors: 2nd Year, Second Semester.

## WORK EXPERIENCE

### VisibleTeam

New York, NY

Developer Intern

June 2023 – November 2023

- Created a WordPress plugin with PHP that displays a site's health and information, the plugin also displays a list of every plugin used by the site and checks if they have updates or not. The plugin is also compatible with WordPress version 6.0 and above.
- Designed and created websites from WordPress and used PHP to modify them, also learned more about the plugins that these websites used.
- Dabbled in Figma for website design and project management. Also used Docker to set up Container for Websites of different PHP versions
- Learned TensorFlow and Selenium to try and create a WordPress Plugin that checks if all the plugins are compatible with a specific version of WordPress on a website. This data would then be compiled and sent to the admin side of a website

## LEADERSHIP EXPERIENCE

### Computer Society of the Ateneo (CompSat)

Katipunan, Quezon City

Vice President of Member Relations

August 2022– May 2023

- Organized Freshie-Welcoming for incoming freshies that year which is one of the first transition events for our Computer science batch. We also garnered a pretty high score of 4.1 for overall satisfaction with our post-event survey.
- Spearheaded the CompSat general assembly on site and made a general impression among the organization with its minigames and good food. We garnered a score of 4.5 in terms of overall satisfaction with our post-event survey.
- Promoting and Safeguarding the well-being of our members, offering support resources, and organizing wellness initiatives.
- Organized XP Week which consists of many events that cultivated friendship among the members. One of which is called Tambay Week where we give all our members a place where they can hang out and meet new people while they play games and chat. My team and I garnered a 4.5 for the satisfaction of the survey

### Computer Society of the Ateneo (CompSat)

Katipunan, Quezon City

Associate Vice President of Finance

August 2023– May 2024

- Managed the preparation of documentation required for reimbursement claims such as receipts and tracked who gets reimbursed.

### Ateneo AEGIS

Katipunan, Quezon City

Client Services Director

August 2023– May 2024

- Lead the team to respond to student questions and inquiries via email and social media about the yearbook and photoshoots
- Assist in managing social media presence and crafting engaging content like spiels. Coordinate and support photobooth shifts, ensuring smooth operations.

### Computer Society of the Ateneo (CompSat)

Katipunan, Quezon City

Project Head for XP Week 2.0

February 2021– March 2022

- Led and coordinated the XP Week 2.0 event, aimed at giving our members a well-deserved rest after the midterms
- Organized and executed multiple online game night tournaments and virtual hangouts for each day of the week.
- Facilitated engaging and interactive activities to foster community and support among members during the pandemic.

### Google Developer Student Clubs Loyola(GDSC-L)

Katipunan, Quezon City

Externals Deputy

August 2021– May 2022

- Had a briefing and learned all about emailing formalities and Streak, which is a customer relationship management (CRM) tool that integrates with Gmail. This allowed me to organize emails and help me secure sponsorships.
- Gained expertise in emailing potential sponsors and facilitating sponsorship agreements. Also learned how to track the deals we made with our sponsors
